

# InOMN

International Observe the Moon Night

**Saturday, October 8**

**Come to the Anza-Borrego Desert State Park Visitor Center  
and  
Celebrate our Nearest Celestial Neighbor!**

## **1:00 pm Why does the Moon Change Shape?**

Learn about the moon's phases and what makes the moon appear to change shape from night to night. Discovery Lab

## **3:00 pm What do You See in the Moon?**

Some see a Man-in-the-Moon, others a bunny or a frog! Learn stories of other cultures, and try your hand at your own moon story. Discovery Lab

## **4:30 pm Moon Rise**

Assuming the clouds cooperate, we'll watch the moon come up together, and talk about some of the features that are visible to the naked eye or through binoculars and telescope. Patio
